

2010 OPIS PRINT ADVERTISING OPPORTUNITIES

TO REACH THE READERS OF OIL EXPRESS AND OPIS NEWSLETTERS

ABOUT OPIS AND THE NEWSLETTERS:

- OPIS has been providing news and pricing to the downstream petroleum industry for 25+ years!
- Each year, more than 100 billion gallons of fuel are pegged to the trusted OPIS Price Index.
- The newsletters reach over 2,800 key decision makers weekly (Oil Express: 1,900 and OPIS: 900) who pay to receive the newsletters; however, we estimate a readership of over 9,000. They own, supply or lease over 100,000 convenience stores and petroleum locations.
- OPIS readers are crucial decision makers for all facets of their petroleum business and from all levels of supply chain: futures, rack, spot and retail.
- The *Oil Express* reader is the key decision maker for everything that makes their gasoline center run – from c-store items and software to image upgrades like new canopies, signs, car wash systems, insurance, tank equipment and more. They're jobbers, dealers, marketers, c-store operators, travel centers and oil executives who own their retail petroleum businesses.
- The *OPIS* reader are jobbers, marketers, retail chains and other bulk fuel purchasers who are involved in the exchange of billions of gallons of all different kinds of petroleum fuel annually.
